LIGHTING

ACCESSORIES

"Light is the magical ingredient that makes or breaks a space; it's one of the most important elements in all my interiors."

Benjamin Noriega-Ortiz

"For a house to be successful, the objects in it must communicate with one another, respond and balance one another."

Andre Putman, Interior and Product Designer

ABOUT CREATIVE DIRECTOR

“Growing up, I have always had a keen interest in drawing and creative design. I have always been especially interested in all the disciplines around the design world- from buildings to clothing to furniture and back to interior design. Every time I see a beautifully decorated home I try to look closely at how the furniture and other décor items were carefully handpicked to blend and coordinate with the entire space. I find myself constantly wanting to make my living space beautiful and well put together.

Over the years, my passion for creating stylish and well-coordinated spaces has grown enormously and began receiving recognition from friends and family. I designed my apartment in the university and everyone who came visiting always have something to say about the design. This ultimately led to them requesting that I help redesign their houses whilst referring me to

other clients. In my final year at the university, I knew it was the perfect moment for me to pursue my passion. And in 2017, I started my interior design company, Haece Interiors. With a vision to create a better, brighter and more beautiful space for all irrespective of status, income and colour.

Everyone deserves to live in an incredible space that brings you comfort and joy. Your space should be a reflection of your personality and style, and it should function in a way that works with how you live your life. It might sound impossible, and that's because incredible interior design does not happen by chance. Great spaces are carefully explored, planned and curated by professionals
